

DOGGING FACT SHEET

Brought to you by www.doginn.co.uk

What is Dogging ?

The term dogging has been adopted to describe the taking part or watching of sexual activity, normal in a public place. Normally the sex takes place in a car or other vehicle.

Dogging has been a British pastime for a number of months, but this is spreading throughout Europe and is even traveling to America and Canada.

Not sure ? Sell it to me

Just imagine the scene. You turn up to a local dogging location and within 20 minutes you could be getting sucked off before being fucked by some horny bitch over the bonnet of your car. Whilst at the same time other girls and men watch from a distance, wanking !!!! Maybe you'll have two girls or maybe two guys join in. Whatever you want, you can find it at your local dogging site.

Where can I get dogging ?

Dogging is taking place in loads of places up and down the UK - normally in picnic areas, multi-storey car parks, supermarket car parks and other similar places.

Who goes dogging ?

It's not just dirty old men and loose women !!!! You would be surprised at who goes dogging ? Doggers tend to be the people you least expect? Watch out the next time you

go, you may see your boss, bank manager or local policeman Inspector !

Why Dogging ?

The terms is thought to have come about because of the age old alibi of 'walking the dog' when you were really popping out for a bit of extra curricular activity. It is thought that is also because of the position that most doggers seem to enjoy - Doggy

Ok, I like the sound of it, where do I start ?

Look out for dogging sites that connect you with trusted people who are looking for fun too. Try to avoid public forums that advertise publicly - you may end up sharing a car park with boy racers, robbers, muggers, perverts or even the police.

Real Doggers will be discreet and only give out details to trusted people too.

Some sites that safely connect you with other doggers are :

<http://ukdogging.diydating.com>

<http://www.doggingdates.co.uk>

<http://doggingcentral.co.uk>

There is even a recorded Dogging Hotline with loads of information on dogging - **09096 420 597**

(Calls cost £1.50/min. You must be over 18 and you must have the bill payers permission. TeleSexy, 501 Intl Hse, 223 Regent St W1B 2QD)

What do I take dogging ?

Your dog, if you need and alibi (tie him somewhere safe away from the action !)

Condoms (If you want to take part)

Tissues or wipes

Lubrication

Cameras (always ask permission first !!!)

Don't forget to dress appropriately for the weather !

Always dispose of your 'dogging kit' safely and properly. Areas that are left full of used condoms and other items will soon get closed down by the authorities. If you wouldn't want you kids to find it, don't leave it.

When should I go dogging ?

It is probably best to make arrangements with any people you have meet on reputable sites or that you have had dealings with before.

Of course, with anything you do in public, you need to be aware of crime and also sexually transmitted diseases.

So what happens?

Well men, women and couples turn up in cars, and wait to see who else turns up. The couples or women then turn on their inside light if they want to be watched, the people who want to watch come on over and take a look at the women or couples getting horny, usually whilst masturbating.

Sometimes it goes further than that, and the windows roll down, and the men are invited to fondle the women, and sometimes even more. Some people move it on to blow-jobs and even full sex! Either in the car, through the window, or even just in the open air!

Just imagine what you could get up to! Pop along to a dogging location and within 15 minutes you could be getting the sucking of you life before fucking some horny bitch over the bonnet of your car, whilst other guys and girls watch whilst wanking and wait for their turn!
